

Files view

Files view displays all of your AirSend files, including the files added to channels you created and files added to channels that you are a member of.

- [Accessing Files view](#)
 - [My Files](#)
 - [Shared Channels](#)

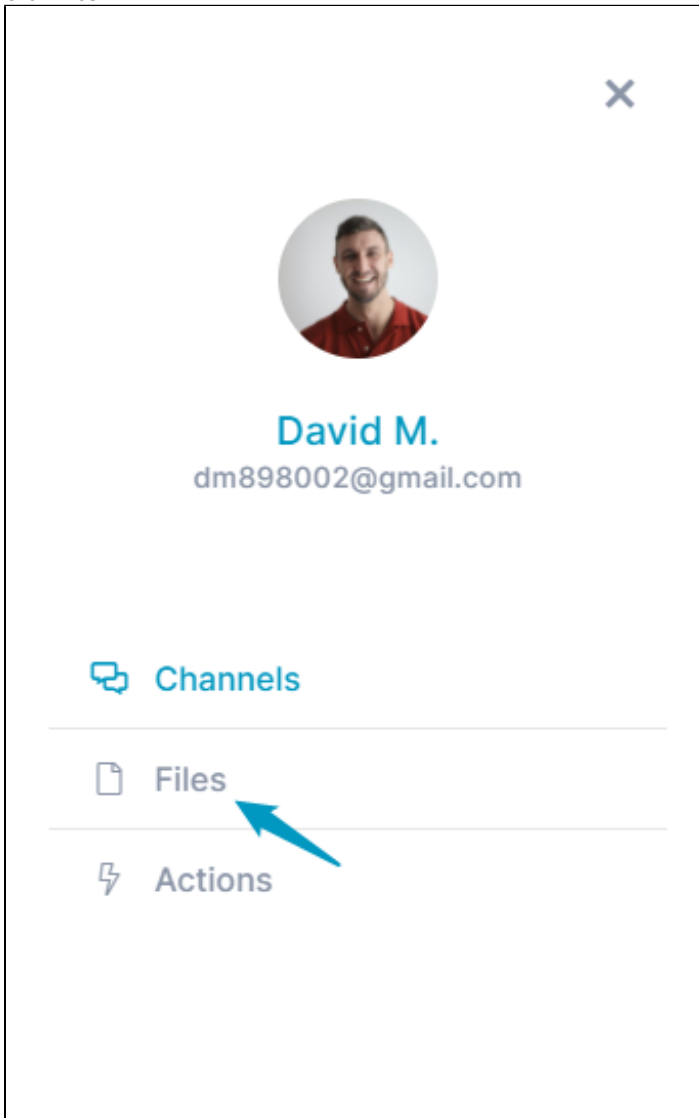

Accessing Files view

1. Open AirSend.
2. In the upper left corner, click the triple-bar icon.

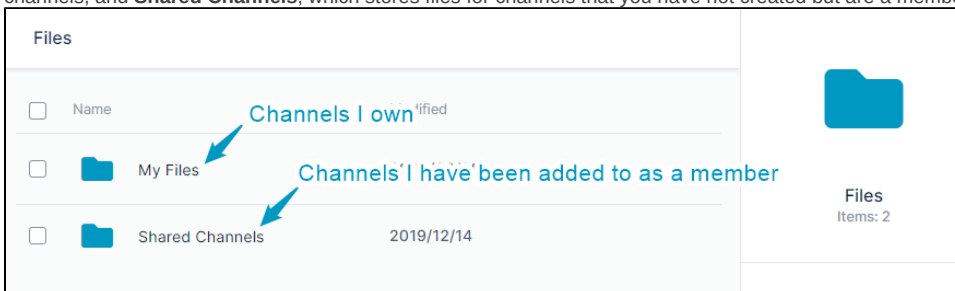

The side navigation panel opens:

3. Click **Files**.

Files view opens. It displays the folders **My Files**, which stores files for channels that you have created and files that you are storing outside channels, and **Shared Channels**, which stores files for channels that you have not created but are a member of.

My Files

Click the **My Files** folder to view folders for each channel that you have created, a folder for files that you have deleted, and any files or folders that you have added to My Files directly in this screen, outside of any channels.
