

FileCloud API - Logging Exercise

FileCloud logging offers a simple but powerful means to follow and debug the communication between your client and FileCloud HTTP server.

- Logs files are stored under the SCRATCH folder under Apache web server root folder.
- To view the log file, you can use note pad or a Log file monitoring tool such as Bare Tail by Bare Metal Soft in Windows. <http://www.baremetalsoft.com/baretail/>.

As an additional activity, repeat the Authentication exercise and follow the FileCloud logs.
