

Patch 20.2.4.12080

November 19, 2020

Patch 20.2.4 fixes these issues.			
Server	Activity stream	CL-7337	A problem causing the activity stream to time out has been fixed.
Server	Activity stream	CL-7627	To decrease CPU use, FileCloud is no longer using the activity stream for folder browsing.
Server	Folder move	CL-7631	An issue that enabled the Move dialog box to be opened when no selection was made has been fixed.
Server	S3 Storage	CL-7629	A problem causing an S3 storage multi-part upload to be marked complete although it failed to load the last chunk has been fixed.
Server	S3 Storage	CL-7617	When FileCloud used S3 for managed storage, an error appeared when a file was added and there was no temp reference for the file. This has been fixed.
Server	Username	CL-7616	When a user account with upper-case letters was created from the log-in screen, it failed on login. This has been fixed.
