

Removing a member from a channel

You must be an [owner](#), [admin](#), or [manager](#) to remove another member from a channel.

To remove a member from a channel:

- In the opened channel, click the Members icon at the top of the channel and click x next to the member's name.

or

- In the opened channel's chat bar, enter **/kick @username**
If you don't want the user to be able to rejoin the channel, enter **/kick @username --ban**
